Penguin 709 S**

CTcoin Penguin 709 S

A new designed CDS machine from CTcoin

The Penguin - a unique line of self-service machines

The Penguin 709 S is an easy-to-use self-service counting and sorting machine that counts up to 20 different coins and sorts up to 9 coin denominations into coin drawers or coin bags.

A Reliable Cash Deposit Machine

CTcoin's 4th generation alloy sensor technology assures 100 per cent exact counting accuracy and rejects foreign coins, false coins and tokens.

Improved functions:

- Improved 4th generation coin sensor technology
- Tilt sensor for easy cleaning of the machine's coin rail
- Large four-line easy-to-read display
- Coin hopper and mechanism are placed on an extension shelf for easy service access
- Coin divider in noise-reduced material
- Coin hopper and coin wheel in noise-reduced material
- Printer housing for safe printout
- Noise reducing materials
- Pioneering design for modern bank and office decors

The Penguin 709 S contains all the well-known CTcoin advantages:

- Rejection of false coins, foreign coins, tokens etc.
- Counts up to 20 different coin denominations
- Automatic coin feeding (conveyor belt)
- CTcoin's patented hopper cleaning system that removes all debris after each counting
- Integrated thermal printer with cutter
- Extra strong lock system
- Programmable batch counting
- Programmable fee system
